

Executive Severance Guidelines

Scope

Severance arrangements for employees at L7 and above, and for any employee with a individually negotiated severance clause. Restricted to the executive team, the Head of People Operations, and Legal.

Standard severance

- L7: 9 months of base salary
- L8: 12 months of base salary

Severance is paid as salary continuation, not as a lump sum, unless Legal advises otherwise for a specific jurisdiction.

Bonus treatment

A departing executive receives a pro-rated bonus for the current year at target, payable at the normal payout date, provided the departure is not for cause. Departure for cause forfeits any unpaid bonus.

Equity treatment

Unvested equity continues to vest for 6 months after the last working day at L7 and 12 months at L8. The exercise window for vested options is extended to 24 months from the last working day. Departure for cause cancels all unvested equity immediately.

Benefits continuation

Medical coverage continues at company cost for the severance period or until new employment begins, whichever is earlier. The departing executive must confirm new employment within 10 business days of starting.

Conditions of payment

Severance is conditional on a signed separation agreement including a release of claims, a 12 month non-solicitation of employees and customers, and continuing confidentiality obligations. Payment does not begin until the revocation period in the agreement has expired.

Approval

Any severance outside these guidelines requires approval from the Chief Executive and the Compensation Committee of the Board. Approvals are recorded in the Committee minutes.

Disclosure

Terms for officers may require disclosure in regulatory filings. Legal determines disclosure obligations before any agreement is signed.
